

**Texas Leadership Institute for Public Advocacy
Voter Guide Questionnaire
November 3, 2015 Elections**

Please indicate your support for or opposition to the following statements.
Please answer "yes"(Y) if you agree or "no" (N) if you do not agree with the statement.
Feel free to attach comments (C) to your questionnaire.

Name _____ EMAIL _____

Candidate For _____ PHONE _____

| ISSUES | STATEMENTS | Y | N | C |
|--------------------------------|--|---|---|---|
| Taxes | I would vote against establishing a state income tax. | | | |
| Education | School choice vouchers should be established to allow all parents to choose an alternative school for their children. | | | |
| Marriage | The Supreme Court ruling (5-4) in the Obergefell v. Hodges decision granting same sex couples the right to marry is unjust because it violates natural and Divine law. | | | |
| Ten Commandments | Displaying the Ten Commandments should be permitted in public school buildings. | | | |
| Abortion | Abortion is a heinous attack on the Divine law as ordained by our Creator. As a public official, I will do everything within my power to restrict and limit the expansion of abortion in San Antonio and the state of Texas. | | | |
| Religious Liberty | Religious liberty is our first, most cherished right as Americans, directly linked to our freedom to follow the dictates of our conscience. This fundamental right should never be infringed upon by government mandates and statutes. | | | |
| Investigate Planned Parenthood | The undercover video exposes of Planned Parenthood provide evidence of criminal actions by Planned Parenthood (PP). PP abortion centers in Texas should be Investigated and if found guilty, prosecuted to the full extent of the law. | | | |
| HOV Lanes | The expansion of Hwy. 281 should not restrict lanes to high occupancy vehicle (HOV) and bus use only. Studies show restricting lanes increases congestion. | | | |
| Toll Roads | Existing highways/freeways should not be changed to toll roads. | | | |
| Intelligent Design | Students in Texas schools should be given all the information (theories and positions) about creation including intelligent design. | | | |
| Public School Curriculum | Outside government and non-government agencies should respect the sovereignty of Texas over its education curriculum especially with respect to Social Studies and History. | | | |
| Public School Funding | School board policies and leadership - not necessarily ever-increasing levels of funding - are significant factors in improving educational outcomes. | | | |
| Conscience Accommodation | An elected or appointed official with the responsibility to issue marriage licenses should be granted an accommodation or exception if issuing a license to a same sex couple violates his or her conscience and religious beliefs. | | | |
| Annexation | Residents directly affected by annexation should be part of the decision-making process and should be able to vote for or against the annexation. | | | |
